Vendor Directory
ALC CONSULTING, INC. is a Healthcare IT consulting firm specializing in solutions for organizations looking for EDI growth strategies. We work with payers, providers, billing systems, PMS/EMR vendors, other EDI focused organizations and clearinghouses.

For more information contact: Ana Croxton, ana.croxton@gmail.com or 770-833-3022.

ALPHA II’S software-as-a-service (SaaS) solutions support coding, compliance, claims editing and revenue analysis for healthcare professionals, clearinghouses and government entities – both directly and through software developers. Beginning with the initial receipt of patient data through the final scrutiny of the payer’s remittance advice, Alpha II empowers precision across the reimbursement process. The company’s toolsets, data content and rules engines currently plug and play with electronic health record, practice management and hospital information systems to help their customers comply with the latest policies, standards and directives.

For more than 30 years, our experienced healthcare professionals have worked together to gather, analyze, and interpret healthcare coding and billing rules and regulations. This continuing effort has produced the industry's most comprehensive content database and rules engine available—well over 100,000 man-hours in the making and continually under development. Because of this, we are perfectly positioned to help large- and small-scale healthcare providers nationwide maintain compliance and achieve accurate reimbursement—no small feat in today’s healthcare environment with its complex regulatory pressures and cost containment measures.

Our data centers, where the Alpha II SaaS solutions are hosted, are accredited by the Electronic Healthcare Network Accreditation Commission (EHNAC) a federally-recognized standards development organization and tax-exempt 501(c)(6) non-profit accrediting body designed to improve transactional quality, operational efficiency, and data security in healthcare. The achievement of healthcare network accreditation through EHNAC is a testament to Alpha II’s private and secure network.

For more information contact: Stuart Newsome, CPCO, Vice President of Business Development; stuart.newsome@alphaii.com; 334-395-9807.

AVAILITY is an industry-leading, HITRUST-certified health care information technology company that serves an extensive network of health plans, providers, and technology partners nationwide through a suite of dynamic products built on a powerful, intelligent platform. Availity integrates and manages the clinical, administrative, and financial data needed to fuel real-time coordination between providers, health plans and patients in a growing value-based care environment. ePROVIDER SOLUTIONS sees itself as so much more than a clearinghouse. We are a company that stands in the gap—bridging over the technical complexities and compliance issues to unite providers with their payers and their patients. eProvider Solutions has a reputation for honesty and integrity, dedication to character and customer support, and is committed to establishing relationships and conducting business from a position of high ethical standards.

Having decades of experience in health care operations and management, the founders of eProvider Solutions built a team of motivated and seasoned professionals with a diverse background in the healthcare industry. We continue to add to our team and our services to provide practical solutions to the ever changing obstacles our providers face in this industry.

Please contact BJ Dvorak at 605-254-5830 or email her at bjd@eprovidersolutions.com for more information on how to partner with us.
**eSolutions' Clearinghouse**

Offers innovative, web-based solutions that represent the cutting edge of commercial healthcare billing technology. Each solution is customizable for maximum productivity to accelerate the claim lifecycle and maximize reimbursement in the most efficient way possible. With enhanced editing, payer-specific scrubbing and smarter eligibility verification, our online claims management delivers powerful analytics and executive level controls to put our clients in charge of their entire claims process. In addition to superior customer support, eSolutions offers connectivity to professional, institutional, dental and workers’ compensation payers to seamlessly integrate with practice management system for optimal workflow.

**Practice Insight®**

Far more than a clearinghouse, Practice Insight® improves the entire billing and collections process, from EDI submissions to workflow management.

Providers in all 50 states rely on the power of Practice Insight’s technology which does much more than connect them to thousands of commercial and government payers to submit claims. Practice Insight’s software also enables users to track every single claim in real-time, customize claim edits, create secondary claims, manage their claim workflow, verify patient eligibility, process electronic and printed patient statements, receive patient payments, recover ERA denials, monitor user productivity, analyze all EDI transactions, manage their customer support, and much more. We value our partnerships with our vendors and strive to help them be successful. For more information visit our website at [www.practiceinsight.net](http://www.practiceinsight.net) or contact Jim at [jbettendorf@practiceinsight.net](mailto:jbettendorf@practiceinsight.net) or at 713-333-6000.
TRIZETTO PROVIDER SOLUTIONS helps physicians, hospitals and health systems simplify business processes and get accurate payments quickly while always looking for new ways to help improve revenue and increase cash flow. TriZetto, a Cognizant company and business unit within Cognizant’s healthcare practice, provides world-class information technology solutions to make better healthcare happen. TriZetto’s world-class technology products, in combination with Cognizant’s consulting, IT and business process services at scale dramatically simplifies the deployment and adoption of technology and improves operations – helping to reengineer the business of healthcare today, while reimagining it for tomorrow.
